It has been more than 60 years since Daisy, our family cow was pushed out of the barn to make space for scenery, props and dressing rooms. Robert Duvall, John Carradine, Gene Hackman and a long list of up and coming stars came to Bellport to perfect their craft and take part in a tradition called summer stock. Summer stock theatres thrived throughout the 1950's and '60's and Gateway was no exception. In the 1970's, the public's taste for theatre became more sophisticated. Instead of coming to see up and coming stars, people wanted to see fully seasoned performers in slick and professional productions. Gateway adapted to those changes and continued to thrive through the 80's and '90's while many of the original summer stocks closed their doors.

We have struggled to stay afloat during these past few tumultuous years but now know that ticket sales alone do not sufficiently cover the cost of the productions. Other regional theaters generate 15-50% of their revenue from public and private sponsorship. We also need this type of support to continue.

The Performing Arts Center of Suffolk County has been formed as a non-profit corporation that will produce the 2011, and future seasons. We will pursue funding through government grants and corporate sponsorships as well as reaching out to private donors as well. This is where we need you. Even if you are not in a position to give additional financial support, your patronage is vital to our survival. No other theater on Long Island can match our vast experience producing live musical theatre.

We will be using this summer as a huge period of transition. In the next coming months you will be hearing from us about how you can further get involved with the happenings at Gateway and be able to help us in our mission. We need you and your love of the arts to keep us alive and energized to bring you the quality of theater you have come to expect.

Thank you so much for your continued support and your loyalty to The Gateway Playhouse.

Yours truly,

Paul Allan  
Executive Director/Producer
